

DFI participated in a joint mission to Tajikistan. Other partners that took part in the mission included the World Bank and UNCTAD. The mission met with officials from the Central Bank and the Ministry of Finance as well as commercial banks operating in the country. The main objective of the mission was to evaluate the existing debt management capacity in the country within the framework of the Debt Management Performance Assessment (DeMPA). At the end of the stay, the mission presented the national authorities with a preliminary assessment.
