

DFI spoke at the UNCTAD Debt Management Conference in Geneva on the links between debt management and public financial management, urging a reversal of the marginalisation of debt management in the absence of debt crisis, and a greater focus on funding decentralised regional and in-country capacity-building. For DFI's presentation click [here](#) . The conference also provided a forum for bilateral meetings with many of DFI's implementing partners and the countries we are assisting on debt management capacity-building. Overall, the conference focussed on debt restructuring and responsible borrowing/lending as well as debt management. Click [here](#) to see the programme and papers.
