

DFI supported OIF in preparing the participation of the Madagascar government at the Caucus meeting of African Governors of the IMF and World Bank, held in Sharm-el- Sheikh.

Madagascar spoke on behalf of the OIF network and presented the recommendations of the 28 governments in that network to reduce costs and risks, increase budget revenue mobilisation, and improve transparency and accountability of public-private partnerships. The recommendations of the network were included in the final memorandum of the Caucus which will be discussed with the heads of the Bretton Woods Institutions at the African Governors' meetings with them at the BWI Annual Meetings in Bali in October.
