

DFI and Oxfam met in the Hague to agree a three-year work programme for the Commitment to Reducing Inequality Index, to produce the deliverables needed under the Open Society Foundation grant and as part of their joint partnership. We discussed improving and broadening the methodology to compile and analyse the CRII; as well as key performance indicators at the global, regional and national level, and improvements in communications and fundraising efforts. The outcomes from the meeting will be compiled into a strategic plan early in 2020.
