Country Profiles provide an overview of findings and progress achieved through participation in the FPC Capacity Building Programme implemented by DFI and its collaborating partners. Each profile contains information on:

- Cooperating partners (national, regional and international)
- Background (latest foreign investment and investor perception indicators)
- CBP support and achievements over time
- Country progress and intended results (CCE)
- Further reading (links to analysis, data, and related information)

Profiles will be added or updated on an ad-hoc basis, as new information becomes available. Profiles are presently available for:
