A joint World Bank/DRI visited Dushanbe, Tajikistan, with an aim to develop a debt management reform plan and present it to the authorities. The Reform Plan included the following areas: medium-term debt strategy, debt sustainability analysis, developing the domestic market, debt data and recording. The Plan also included a logframe to implement the proposed actions as well as a training program.

The mission met with government officials at the Ministry of Finance, Central Bank, and other institutions involved in debt management.
